

D. C. FISCAL RELATIONS

Comprehensive Statement of Facts
On Relations to United States
About Completed.

Information Runs Back to 1790 and
Continues to Present Time.
Hearing October 20.

The first comprehensive statement of all the facts relating to the fiscal relation between the District of Columbia and the United States is nearing completion, according to a statement from the executive committee of the joint citizens' committee, which held a meeting in the office of the chairman, Henry B. F. Macfarland. The hearings before the joint select committee of Congress are to begin October 20, and the data to be presented by the joint citizens' committee will be complete by October 15, it is expected.

The data run back as far as 1790, and continue to the present day. They will include summaries and analyses made with the assistance of statistical experts, including A. M. Fisher and L. Verne Beales, the latter of the bureau of census.

Portions of the statement will be printed before being presented to the joint select committee, and the rest will be presented in its original form.

Much of it will be official, including statements from the District Commissioners, the Treasury Department, the Interior Department, the Census Bureau and other departments of the government besides official committee reports and documents published by Congress covering the whole subject-matter for 125 years. The work of collecting it has been carried on continuously since the close of Congress.

At the meeting last night, the first since July, Chairman Macfarland submitted a number of official statements obtained from the different departments of the government during the summer. He also submitted a statement as to the condition of the work of the subcommittee on assessments and taxation. John Joy Edson, chairman, showing excellent progress and indicating that its complete report will be ready in time for use by the executive committee before the joint select committee.

Worked All Summer.
Mr. Edson, chairman, Thomas Bradley, secretary, and other members of the committee have been working through the summer on their task with the assistance of A. M. Fisher and other experts and will have accurate and complete data to submit, including besides the official statistics of the District assessor, authoritative facts as to assessments in this and in a number of other cities supplementary to the official reports of the census bureau.

The executive committee is glad to have the additional time for preparation given by the postponement of the hearings of the joint select committee from September 25 to October 20, as it will enable them to make more complete. The executive committee filed with the joint select committee of Congress before that of August, according to the promise made to the joint select committee of Congress by Chairman Macfarland at its meeting, March 15, last, the brief with the understanding that it would not be made public until the joint select committee began its public hearings.

TEXTILE REPRESENTATIVES
CONFER WITH MR. FLEMING

Trade Adviser Promises to Investigate
Rumors of a Supply
in Holland.

Following their conference with Secretary Lansing yesterday afternoon, the representatives of textile plants in the United States had a long conference with Trade Adviser Fleming in regard to possible acquisition of dyestuffs from Germany. Mr. Fleming told them that the Department of Commerce had no information of any considerable quantity of dyestuffs was included in the \$100,000,000 worth of goods now in the Rotterdam docks consigned to the United States. As the dyestuffs now in Germany, which the American textile workers desire to get out, the trade adviser pointed out that the German government had made that practically impossible by insisting that German manufacturers be supplied with American cotton in exchange for the dye, notwithstanding that Great Britain, France and Italy have declined cotton contracts.

Mr. Fleming undertook to secure a cable report from Holland as to the quantity of dyestuffs there awaiting export to this country, and promised that if any were found he would endeavor to have the goods brought out as promptly as possible.

The committee submitted samples to prove that American dyestuffs could not be substituted for the German product.
